Dear Harold:

Enjoyed our talks very much.

The difficulty of presenting the issues is now one of communication. The Indo-China War, the Assassinations, the rise of an economic oligarchy, the spread of a military - industrial - educational complex, the media "sanitizing", and other factors are parts on an indivisible chain.

Unless, this material is grasped as casual and symtomatic, events appear as isolated acts.

No doubt Tiger By The Tail addresses this problem.

Best Wishes,
